CURRICULUM VITAE

NGUYEN VO YEN LINH

Software Intern

Information

- Full name: Nguyen Vo Yen Linh
- Phone number: +84 395245029
- Email: nvyenlinh05@gmail.com
- Portfolio: https://yenlinh2905.github.io/
- Address: Ho Chi Minh City, Vietnam

Career Objective

Fresh graduate in Information Systems with internship experience in Java (Spring MVC, JSP) and React/Next.js. Basic knowledge of Node.js, PHP, and MySQL, with hands-on practice in RESTful APIs, Git, and Agile teamwork. Eager to join Splus Software as a Fresher Developer to contribute to web application development and continuously learn new technologies.

Skills

Technical Skills:

- **Frontend Technologies**: HTML5, CSS3, JavaScript (ES6+), ReactJS, Next.js, Redux, Bootstrap.
- **Backend Technologies**: Java web (Spring MVC, JSP), RESTful API.
- **Database:** MySQL
- **Tools & Platforms:** Git/GitHub, Jira, Docker, Postman, Figma, DBeaver.

Soft Skills:

- Problem-solving & debugging
- Teamwork in Agile/Scrum
- Adaptability & proactiveness
- Detail-oriented, able to work under pressure
- English: Intermediate (reading & communication)

Professional Experience

Research Assistant – Institute Of Coastal And Offshore Engineering

October 2025 – Present

- Developed a WebGIS-based decision support system for disaster risk monitoring and coastal resource management.
- Built full-stack web features including interactive map interfaces (React/Leaflet), backend APIs, and Python scripts for environmental data processing and integration with IoT monitoring systems.
- Deployed and maintained the application on Linux servers, managing database integration and system configuration.

Intern Fullstack Developer – GoGoX Viet Nam

March 2025 – September 2025

- Contributed to the end-to-end development of GoGoX KR Logistics web applications in an Agile Scrum environment, delivering features for both B2C and B2B platforms.
- Developed responsive B2C applications with React/Next.js, including a public-facing order detail page, and optimized UI components to improve load time by ~20%.
- Built and maintained Java web applications (Spring MVC, JSP) for admin and B2B modules, implementing a full-stack update to driver logic (UI → Controller, DAO, VO, XML) with database integration.
- Collaborated with project managers and senior developers to deliver features on time, participated in debugging, documentation, and code reviews to ensure scalability and stability.
- Designed responsive layouts, interactive features, and Figma prototypes, ensuring consistency with brand guidelines and user experience standards..

Technical stack: React, Next.js, HTML5, CSS3, JavaScript (ES6+), Tailwind CSS, RESTful API, Java (Spring MVC, JSP), XML, MySQL, Figma, Jira, Git/GitHub.

Projects

Graduation Thesis – WebGIS System for Salinity Intrusion Monitoring in Ho Chi Minh City

January 2025 – June 2025

- Developed a full-stack web platform with ReactJS (frontend) and Node.js (backend), implementing interactive UI, authentication, search, and data export features.
- Integrated RESTful APIs with PostgreSQL/PostGIS for real-time spatial data processing, ensuring scalability and efficiency under 1,200+ concurrent records.
- Optimized frontend performance with Chart.js and Mapbox/Leaflet, delivering responsive layouts and dynamic data visualization.
- Deployed application with Docker for reproducibility and scalability across environments.

Project Link: Backend Repo (GitHub) | Frontend Repo (GitHub)

Technical stack: ReactJS, HTML5, CSS3, JavaScript (ES6+), Node.js, REST API, Bootstrap, PostgreSQL/PostGIS, Redis, JWT Auth, Docker, Git.

Education

Bachelor of Information Systems Engineer – Nong Lam University, Ho Chi Minh City

- GPA: 3.59/4.0 | Top 5 in program
- Merit-Based Scholarship (2022 – 2024, 2 consecutive years)

Certifications & Achievements

Professional React Developer Certification – FPT Software Academy (2024)

Certificate Link: View Certificate (React Developer)

Web Design Technician Certification – Computer Science Center, VNU-HCM (2024)

Certificate Link: View Certificate (Web Design)
